

INTERRAPID® Dial Test Indicators

- Magnetic resistant
- Two-way action – no reversing lever
- Dovetail and adjustable stem adaption
- Carbide contact point swivels 210°
- Extremely low measuring pressure
- Ball bearing and jewelled movement
- Precise repetitive readings
- Easy-to-read tilted dial
- With revolution counter

INTERRAPID® Magnetic Bases

Featuring articulating arm and dovetail clamp with fine adjustment, these bases provide precise setting of gage. Widely used for high accuracy measuring with high resolution indicators and electronic gages. Measuring force 400N, V diameter 1.18" -5.9" .
