

Portable Thickness Gages

Compact, portable, light-weight and built to last.

Designed specifically for hand use, where it's more convenient to bring gaging to the work. Extremely versatile for measuring a wide range of thicknesses, with the ability to clear flanges, bosses and other obstructions.

This series of thickness gages are available with either direct reading electronic indicators (with or without SPC output) or standard mechanical dial reading indicators.

If our standard line of thickness gages do not meet your needs, CDI is ready to assist you in designing a gage to fit your special applications.

Available with Electronic or Mechanical Indicators

DG10-9

DG10-10

DG10-14

DG10-16

DG10-17

Easy to hold in one hand; To operate, simply press down the thumb-lifting lever. This raises the spindle, permitting easy insertion of work between the anvil and contact point. Releasing the lifting lever causes the spindle to contact the work, resulting in an accurate and repeatable reading.

Model	Indicator	Throat Depth	Range	Resolution	Anvil	Contact Point	Price
DG10-9	Electronic/Logic	6"	1"	0.0005"	1" Dia. Flat	3/16" Dia. Radius	\$447.00
DG10-13	Electronic/Logic	6"	1"	0.0005"	3/8" Dia. Flat	3/8" Dia. Flat	\$436.00
DG10-14	Mechanical, Grp 3	6"	1"	0.001"	3/8" Dia. Flat	3/8" Dia. Flat	\$214.00
DG10-10	Electronic/Logic	2"	.500"	0.0005"	1" Dia. Flat	3/16" Dia. Radius	\$432.00
DG10-15	Electronic/Logic	2"	.500"	0.0005"	3/8" Dia. Flat	3/8" Dia. Flat	\$419.00
DG10-16	Mechanical, Grp 2	2"	.500"	0.0005"	3/8" Dia. Flat	3/8" Dia. Flat	\$175.00
DG10-17	Electronic/RapoR	2"	.500"	0.0005"	3/8" Dia. Flat	3/8" Dia. Flat	\$196.00
